Suggested title: Credentialing and Conference Relationship When Transferring from One Conference to Another

*Discipline:* Par. 309.3

Financial Implications: None

Sponsoring Agency: General Board of Discipleship

Rationale: The church ordains persons to different work at different times, recognizing, for credentialing, out of which ordination they are authorized to act. This document would note that the newly ordained person had been in X conference relationship in Y order and now is in X conference relationship in Z order.

Amend ¶309.3 as follows:

3. Such persons shall be ordained to the order for which they have been called and qualified, and shall ~~surrender to the conference secretary the credentials of the order from which they are leaving~~ **receive from the conference secretary a new certificate of conference relationship indicating the order they are leaving and the order they are entering.**
